PROFESSIONAL SUMMARY

B.Tech Computer Science student at GNDEC Ludhiana (CGPA 8.6/10, Batch 2023–2027) building and deploying full-stack web applications with React.js, TypeScript, Node.js, Python and SQL/PostgreSQL. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and DBMS, backed by podium finishes in debugging and hackathons. Seeking Software Development Engineer (SDE) or Full-Stack Developer roles.

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS, Vite, Framer Motion, HTML5 Canvas API, Component State Management, Responsive UI
- **Backend & DB:** Node.js, Express.js, REST APIs, Supabase, PostgreSQL, Relational Database Modeling, JWT Auth
- **Tools & Methodologies:** Git, GitHub, Linux/Bash, Postman, Vercel, Netlify, Render, Agile Development, Systems Debugging

EDUCATION & COURSEWORK

Guru Nanak Dev Engineering College, Ludhiana | 2023 – 2027

Bachelor of Technology, Computer Science & Engineering — Current CGPA: 8.6 / 10.0

- **Core Coursework:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, System Design Fundamentals.

TECHNICAL PROJECTS

HostelEase – Location-Based Accommodation Platform | hostel-ease-sigma.vercel.app

Stack: React.js, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Vite

- Engineered full-stack accommodation discovery platform for university students, deployed live on Vercel, featuring location-based filtering, verified listings, and real-time inquiry workflows.
- Modeled relational PostgreSQL schema on Supabase with real-time state synchronization, maintaining sub-100ms response times across reusable, type-safe React components.

OmniLab Studio – Interactive Physics Simulation Workbench | omni-physics-lab.vercel.app

Stack: React.js, TypeScript, HTML5 Canvas API, WebGL, Tailwind CSS

- Built browser-based simulation engine running 8 real-time physics experiments (Wave Optics, Pendulum Kinematics, Circuit Resistivity) implementing governing equations in client-side code.
- Developed reactive parameter sliders updating simulations at 60 FPS, with automated lab report generation and KaTeX math formula rendering.

Track Expenser – Expense Intelligence Application | track-expenser.vercel.app

Stack: React.js, Chart.js, Supabase, Tailwind CSS, REST APIs

- Developed financial tracking application with user authentication, multi-category transaction management, and budget forecasting; integrated Chart.js dynamic analytics dashboards.

ZID Fitness Zone & Taskly – Gym Management & Kanban Workspace | zid-fitness-zone.onrender.com

Stack: React.js, Node.js/Express, Supabase, Tailwind CSS

- Deployed full-stack membership workflows, attendance tracking, and Kanban board with drag-and-drop mechanics and persistent state.

RESEARCH & INDUSTRIAL TRAINING

Research Contributor — "Digital Wellness in India" | J-PAL South Asia | 2024

- Contributed to empirical field data aggregation, user metric tracking, and device analytics for multi-institution research study led by Columbia, Stanford, and UIUC researchers.

AI & ML using Python Industrial Training | ThinkNEXT Technologies | **Grade A (Outstanding)**

- Completed 1-month program covering Machine Learning regression, classification, and data analytics pipelines using Python, NumPy, and Pandas (Cert ID: 939895).

HONORS & COMPETITIVE ENGINEERING

- **3rd Prize (Podium Finish), "Debugging using C":** Tech Disha 2024, Arya College (Outperformed regional competitors in code debugging, memory resolution, and algorithmic problem-solving).
- **Contender, THINK-A-THON 2026:** 8-Hour Inter-College Hackathon by ITian Club, GNDEC ("Where Ideas Ignite Impact").
- **2nd Position, Case Study Making Competition:** Center for Multi-Faceted Learning (CML), GNDEC (Commended for analytical problem formulation and presentation delivery).
- **First Position, Grand Declamation Contest:** Conversa English Academy & Azad Foundation ("Plant Tree, Save Earth").

VERIFIED CERTIFICATIONS

- **Python Foundation Certification (Capstone + Parts 1 & 2):** Infosys Springboard (Accredited Python curriculum covering OOP, data

structures & capstone assessment)

- **WEB FORGE 2026 Web Engineering Challenge:** GNDEC Data Science Club (Ref: CSE/DSC/4681 • Reactive web applications)
- **AI Tools & Modern Engineering Acceleration Workshop:** BE10x (Generative AI workflows, prompt engineering, and developer productivity tooling)
